**Treats 225' of Shoreline up to 6 Months**

Approximately 48 Scoops  
Net Contents: 24 lbs • 10.8 kg

# How does **MuckAway™** eliminate mucky bottoms?

Pond muck is caused by rotting vegetation, leaves, twigs and fish waste that has accumulated over time. MuckAway™ is a special blend of natural, beneficial bacteria designed to work on contact. MuckAway™ rapidly dissolves organic waste into an odorless gas which escapes unnoticed out of the water column. MuckAway™ is so effective that when used regularly can remove up to 2 inches of muck per month!

## Ma **MuckAway™** Natural Beneficial Bacteria

### APPLICATION RATE:

Use 1 scoop per 1,000 sq. ft. of treatment area every 2-4 weeks.  
Example: To treat a beach area that consists of 75' of shoreline and extends 20' out into the pond or lake:  $75 \times 20 = 1,500$  sq. ft. = 1.5 scoops

**WHEN TO APPLY:** When water temperatures are above 50° F. Treatment should continue until desired results are achieved.

**HOW TO APPLY:** Broadcast MuckAway™ evenly over the treatment area.

### WATER USE RESTRICTIONS:

MuckAway™ may be applied to lakes and ponds used for irrigation and aquaculture. Water treated with MuckAway™ may be used for recreation, fishing and other activities immediately after treatment. Safe for recreational ponds, horses, livestock, birds, pets, fish, wildlife and the environment. Do not apply to water that will be used for human consumption.

### STORAGE AND HANDLING:

Keep product in original container and closed when not in use. Store in a cool, dry place. Do not allow to freeze. Wear rubber gloves when handling. Avoid dust inhalation. Avoid contact with skin, eyes and clothing. Wash with soap and water after use. MuckAway™ has a 5-Year shelf life.

### ATTENTION:

Failure to use as directed, or sudden changes in water conditions not consistent with label, may result in the loss or injury of aquatic life. Airmax® Inc. is not responsible for any loss of aquatic life. This product is non-genetically altered and non-pathogenic. The microorganisms used to develop this product can be found naturally in soil and water.
